SOFTWARE ENGINEER

Software developer with over 5 years of experience crafting robust backend solutions that drive business impact. I specialize in PHP, delivering critical systems supporting millions in revenue, and Go (Golang), my focus for high-performance backend development. Guided by Clean Code and Domain-Driven Design (DDD), I build scalable, efficient systems. With a postgraduate degree in Software Architecture specializing in Go, I bring technical excellence and a collaborative mindset to every project.

EXPERIENCE

SOFTWARE ENGINEER

GazinTech

March 2019 - May 2024

- Owned development and maintenance of a PHP-based ERP system, supporting ~340 daily users and enabling BRL 7M in daily revenue; reduced query latency by 20% through optimized database interactions.
- Enhanced B2B e-commerce platforms using Node.js and Nest.js, improving order processing efficiency by 15%.
- Championed Clean Code and DDD practices, cutting technical debt by 25% and mentoring peers in PHP best practices.
- Tech Stack: PHP, React.js, Node.js, JavaScript, TypeScript, PostgreSQL, Docker.

SKILLS

LANGUAGES

- | | |
|------------------|--------------|
| • PHP (Advanced) | • JavaScript |
| • Go | • TypeScript |
| | • SQL |

FRAMEWORKS

- | | |
|--------------|----------|
| • Laravel | • Docker |
| • NestJs | • Git |
| • PostgreSQL | • AWS |
| • React.js | • Redis |

METHODOLOGIES

- | | |
|-------------------------------|----------|
| • Clean Architecture | • Scrum |
| • DDD, SOLID, Design Patterns | • Kanban |
| • REST | |
| • GraphQL, gRPC | |

EDUCATION

POSTGRADUATE DEGREE IN ADVANCED GO DEVELOPMENT

FullCycle College of Technology,
May 2024 - April 2025
EQF Level 7

BACHELOR'S DEGREE IN INTERNET SYSTEMS TECHNOLOGY

Faculdade Alfa Umuarama,
February 2020 - December 2022
